

HPC Power Steering Fluid

Product Code: S10231

HPC Power Steering Fluid is a fully synthetic high viscosity power steering fluid dedicated for Honda / Acura vehicles. **Not suitable for other vehicles.**

HPC Power Steering Fluid is formulated from specially selected high quality fully synthetic base stocks in combination with a special detergent additive to achieve the following performance:

- Excellent clean properties.
- Improves performance and smoothness of operation in power steering systems.
- High Viscosity Index.
- Lightly colored oil helps improves visual detection when flushing is completed, reducing total volume of used flushing oil.

Multi-Brand Power Steering Fluid exceeds the following performance criteria:

Acura P/N 08206-9002A

Honda P/N 08206-9002A

Honda PSF-2

Honda PSF Type S

Honda PSF Type V

Typical Analysis

| Properties | Unit | Method | Typical Value |
|-----------------------|-------------------|------------|---------------|
| Color | | | Light Amber |
| Density @15°C | kg/m ³ | ASTM D4052 | 845 |
| Kin. Viscosity @40°C | cSt | ASTM D7042 | 57.9 |
| Kin. Viscosity @100°C | cSt | ASTM D7042 | 12.0 |
| Viscosity Index | | ASTM D2270 | 210 |
| Flash Point COC, min | °C | ASTM D92 | >201 |
| Pour Point | °C | ASTM D7346 | -63 |
