Gentle Dechlorinating Shower

安 Relief

Thoroughly Remove Hair and Skin-Damaging Residual Chlorine

髪と肌にダメージをあたえる残留塩素をしっかり除去

The chlorine contained in tap water oxidizes lipid and protein on your hair or skin, which may cause the split ends, broken hair, dandruff, itching sensation, rough surface, or dry skin.

Normal Skin

Skin Barrier Breaks Down Due to Chlorine

Residual chlorine oxidizes the proteins of the skin and reduces its ability to retain moisture. The keratinous layer is disrupted. The skin becomes easily irritated and susceptible to penetration by germs and allergens. Sensitive skin and eczema can easily occur.

2.Screw Torayshower RS52 onto the hose.** If it cannot be screwed on, select the appropriate adapter and attach.

*1 The thread size of this product is G1/2. Some attachable items have special thread sizes. Confirm the thread size of the shower hose before purchasing.*2 Application for optional parts (free) is required. Refer to the Users Manual

SAFETY PRECAUTIONS ご使用上の注意

◆Please use water which meets drinking quality standards only. ◆Do not drink any water sprayed by the shower. Recommended filter cartridge use duration varies with use volume, water quality and water pressure. Always check the water temperature before starting to use the shower. (The shower may suddenly spray high temperature water or cold water.) The materials can withstand high temperature up to 60°C, but when actually using it, adjust the temperature to the appropriate level. When using in a building with high water pressure, start the shower by slowly turning the tap.(If cold or hot water is ejected at high momentum from the shower, it may cause the shower to fall off the used. ●It must not be connected to an instant water heater for kitchen use. (It is designed as specialized bathroom use device.) It cannot be used on a vanity cabinet. It must not be used with storage type hot water heater like an electric water heater, or a balancing kettle. The water may become murky by the activated carbon powder of the filter media. however, this is not a defect. Run the water until it becomes clear. After stopping the water, it will continue to come out from the shower for a little while. However, this is not a defect because residual water in the shower head is discharged. Do not take the filter cartridge apart nor remove its filter material by yourself. ●If you feel itchiness or other irritation on your skin while showering, stop using the shower. ●Please be sure to read the Users Manual before using this shower.

●水道水の水質基準に合格した水をお使いください。●飲料用としてご使用しないでください。●カートリッジの取換目安は使用水量、水質、水圧により異なります。●使いはじめは必ず温度を確かめてください。(いきなり高温のお湯が出たり、冷たい水が出たりすることがあります。)●素材の耐熱温度としては60℃までご使用いただけますが、実際のご使用は適温に調節してお使いください。●水圧の高い所ではご使用開始時、蛇口をゆっくり開けてください。(水またはお湯が勢いよく飛び出し、シャワーがアッケからはずれる恐れがあります。)●水圧の低い所では、湯温が安定せず使えないことがあります。●台所用の瞬間湯沸器にはご使用できません。(浴室専用の設計でょ)●洗面化粧台に立て使用できません。(浴室をません。)を収温水器などの貯湯式給湯器を7ランス釜にはご使用できません。●使いはじめに黒い水が出ることがありますが、活性炭の粉末ですので異常ではありません。透明な水になるまで流してご使用ください。●水を止めた後、少しの間シャワー散水部から水が出ますが、これはシャワーヘッド内部の残留水が排出されるもので故障ではありません。●カートリッジは分解したり、る材を取出したりしないでください。●使用中、肌にかゆみ等刺激を感じた場合は使用を中止してください。●で使用の際には必ず取扱説明書をお読みください。
